

Service Intelligence

Powered by **ECOLAB3D™**

Get ready for a smarter service experience.*

Service Intelligence, powered by ECOLAB3D, enhances collaboration and transparency with your Nalco Water support team. Consistent service delivery that serves your business priorities has never been easier with:

REAL-TIME
DATA VIEWS

ANALYSIS
TOOLS

DYNAMIC
REPORTING

Service Intelligence elevates your service experience to help you succeed:*

REAL-TIME, TWO-WAY SERVICE COMMUNICATION WITH YOUR NALCO WATER SUPPORT TEAM

- Clear ownership and accountability on service needs and prioritization
- Supports consistent service execution through checklists customized for in-scope assets and tasks

DYNAMIC SERVICE DATA FROM MULTIPLE SOURCES

- Broad, deep and granular visibility of service actions
- Confidence in alignment with your Nalco Water support team

ONLINE SERVICE REPORTING

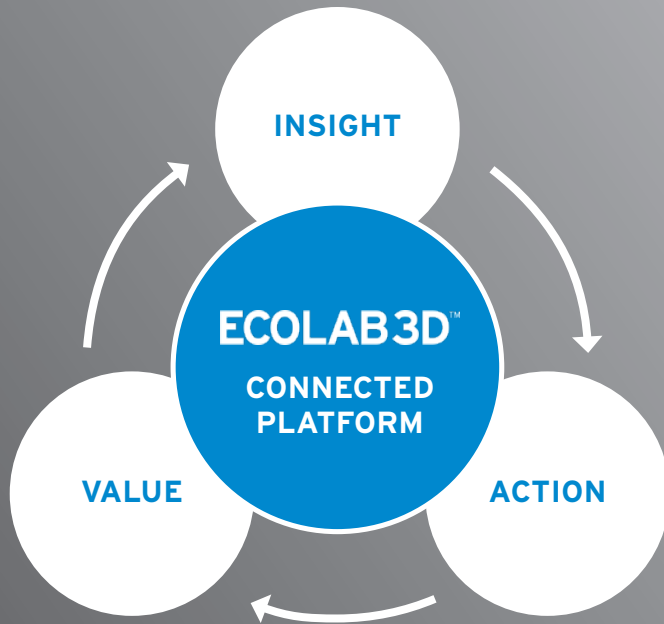

- Real-time delivery of service data and recommended actions
- Increased peace of mind

VISIBILITY DELIVERED VIA ECOLAB3D

- Convenient access to service insights from many mobile devices
- Ability to leverage the full suite of ECOLAB3D connected services

*Compared to conventional service delivery with analog reporting

Service Intelligence delivers exceptional visibility to help you clearly track service actions and respond quickly to system needs.

INSIGHT:

- User-friendly views of service data from multiple connected sources and assets
- Consistent, detailed service reporting

ACTION:

- Clear accountability on service actions needed and taken
- Supports quick and targeted response at your site

VALUE:

- Enables clear prioritization and assigned ownership of service actions
- Swift response to service needs helps keep systems running smoothly and efficiently

Contact your Nalco Water representative today to learn more about Service Intelligence and the full suite of ECOLAB3D connected services.
